Author email address

Abstract paragraph one. There is currently no limit to the length of the abstract but it is expected that abstracts should be of a length typical to scientific conferences. Insert a blank line between paragraphs in the LaTeX file (not in the Word document).

Abstract paragraph two. Note that LaTeX constructs such as  $\sigma$  or  $\Pi$  are acceptable within the body of the abstract. The symbols will have to be individually inserted into the Word document.

Add additional paragraphs here and below. References can be cited as Smith *et al.*, 1999.
